***Terminal Disclaimer***

1. The terminal disclaimer filed on October 12, 2005 disclaiming the terminal portion of any patent granted on this application, which would extend beyond the expiration date of US Patent No. 6,876,299 B2 has been reviewed and is accepted. The terminal disclaimer has been recorded.

***Allowable Subject Matter***

2. Claims 1-7 are allowed. The following is an examiner's statement of reasons for allowance: The prior art of record fails to sufficiently describe or suggest an occupant determination device for a vehicle seat comprising a load sensor at a seat body and a controller for calculating a detection load value based on the output from the load sensor. Further the system determines whether an occupant is an adult or a child based on the detected load value and a hysteresis is provided for changing the occupant determination from adult to child or child to adult. These along with further limitations set forth by the claims render the application allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***
